

PROCHARGER®

Comes Packaged
with PC3 Tuning!

Get ahead of other Hogs with the proven inter-cooled **PROCHARGER** systems built specifically for Harley-Davidson motorcycles.

The **PROCHARGER** is designed for Stock and Modified H-D Motors and is the first and only inter-cooled centrifugal Supercharger for Harley-Davidsons that will not affect drivability, idle quality or rider positions. The **PROCHARGER** has a patented design for quiet operation and can be easily installed in 4-6 hours by our HKL specialists. The system is compact, lightweight and extremely durable, offering very predictable and consistent power for the ultimate take-off ability for your Harley-Davidson motorcycle.

We Dyno All Bikes!
